Summary

Interested Full Stack Developer and AI Enthusiast with practical experience in UI/UX integration and end-to-end product development. Skilled in building responsive, user-centric applications and implementing AI-driven automation systems. Eager to contribute to impactful software projects.

Technical Skills

- **Languages:** HTML5, CSS, JavaScript, Java, Python
- **Frameworks & Libraries:** React, Spring Boot
- **Databases:** MongoDB
- **Tools:** Git, GitHub, Figma, IoT Platforms

Experience

Software Developer Intern

Crescent Info Tech, Erode

June 2025 – Aug 2025

- Collaborated with designers and developers to implement responsive UI components.
- Improved user engagement by translating design prototypes into functional front-end code.
- Participated in team strategy sessions to align product features with user needs.

Full-Stack Web Development Intern

Prodigy InfoTech

April 2026 – May 2026

- Worked on full-stack web development tasks involving both front-end and back-end implementation.
- Contributed to building responsive and user-friendly web application features.
- Gained practical experience in application development, testing, and project workflow execution during the 1-month internship.

Projects

Smart Employee Management System

- Built a secure full-stack employee management system using JWT authentication and role-based access control for Admin, HR, and Employee roles.
- Designed employee and department management modules with CRUD, search, filter, sort, and pagination to improve data organization and usability.

BDD Test Automation Framework

- Developed a basic test automation framework using Selenium, Cucumber, and TestNG.
- Used Page Object Model (POM) structure to organize test scripts in a clear and maintainable way.
- **Technologies Used:** Java, Selenium WebDriver, Cucumber, TestNG.

AI-Enabled Smart Home Automation (IoT)

- Built an AI-driven IoT system to automate home devices based on sensor inputs.
- Enhanced energy efficiency using automated scheduling and smart control logic.
- Designed reliable communication between sensors and controllers for seamless operation.

Certifications

- Figma Basics (UI/UX Design)
- CSS Basics — HackerRank
- Junior Cybersecurity Analyst Career Path — Cisco Networking Academy (May 2025)
- Blockchain Security — Paper Presentation

Education

B.Tech in Information Technology, Nandha College of Technology (Anna University)

2023–2027

CGPA: 7.1
